

U.S. Army Corps of Engineers (USACE)
CERTIFICATE OF COMPLIANCE FOR LOAD HANDLING EQUIPMENT AND RIGGING

For use of this form, see EM 385-1-1; the proponent agency is CESO.

Purpose: This form designates and certifies that LHE, Rigging, and Operator(s) meet all applicable regulatory requirements.

This certificate must be signed by the official of the company that provides Load Handling Equipment (LHE)/Cranes and rigging gear for any application under this contract. Prior to the start of all LHE/crane activities, the completed certificate must be submitted to, and accepted by, the Contracting Officer according to Section 16-7 of the EM 385-1-1.
